

Wrap-up of the BBOB-2015 Results

Dimo Brockhoff
INRIA Lille – Nord Europe

July 12, 2015

BBOB 2015 workshop @ GECCO, Madrid, Spain

5th BBOB@GECCO this year

- 4 submissions
- 16 algorithm data sets
- 2 submissions explicitly for expensive scenario
- no noisy data

Usual questions:

- successful?
- overfitting?

	#papers	#algos
2009	39	29
2010	37	25
2012	19	29
2013	12	30
2015	7	26

2015 comprises CEC *and* GECCO

Conclusions

- reduction in number of submissions over the years
- however, number of submitted algorithms rather stable
- no submissions for noisy testbed in 2015 and 2013
- expensive vs. non-expensive about half in 2015
